& MICROBIAL  
SCIENCE  
DEPARTMENT**Congratulations**

Congratulations to Jim Tiedje and Phil Robertson for being recognized as one of nine faculty at MSU named 2020 highly cited researchers! According to the report, Jim and Phil had “multiple highly-cited papers that rank in the top 1% by citations for field and year in the Web of Science”. [View Article](#)

**PSM Faculty Meetings - Spring Semester 2021**

Faculty, please make sure that the following meetings are on your calendars. A calendar invite with Zoom login/password has been sent.

**Announcements**

Notice of Change of Monthly Reports: Please note that starting February 1, 2021, there will be a change to how you will receive accounting updates on your accounts. You will receive multiple reports that show current expenditures along with encumbered salaries and current spendable amounts. We have started sending these reports to a handful of faculty for the testing phase. We have included a guide on how to read the reports and will be available for support [see the attached PDF called Admin.ReadingReport.v1]. If you are interested in seeing these reports, please contact Ashley Lathrop. If you have any questions regarding the new process, contact Ashley on Teams or by email.

**Notice:** There is a data center outage scheduled for 11:00 PM on January 2, 2021. This outage should last approximately 5 hours.

## Vehicle Use Policy

Please see the attached COVID-19 Vehicle Occupancy Guidance. (September 2020)

## Food and Drink Policy

### Food and Drink Policy - Addendum to the PSSB Reopening Plan 7/23/2020

Based on the changing Executive Orders and needs of the MSU community, food consumption will be allowed in PSSB in posted designated areas. Please keep in mind that this change in policy may pose an increased risk of exposure and it is important to observe physical distancing, follow disinfecting protocols and spend minimal time in the room.

To meet these goals and maximize safety, the PSSB building SOP plan has been modified to:

- Note that it is always preferable to eat outside of the building when possible
- Conference and break rooms on the second floor will be open for food consumption. Please limit your time to 30-min to accommodate colleagues/other building occupants.
  - A279 - Horticulture conference room - maximum occupancy is 5
  - A271 - PSM conference room - maximum occupancy is 6
  - A246 - Break room - maximum occupancy is 5
- Maximum occupancy signs will be posted on each door. If the room is fully occupied, please check another designated space. If all conference and break rooms are fully occupied, check back later.
- Masks must be worn in each room unless actually consuming food.
- Kitchenettes will continue to be closed. There is no microwave or refrigerator usage allowed.
- Everyone should bring and remove all personal supplies for eating.
- The user is required to disinfect the space before and after each use following EPA approved guidelines (70% alcohol for 5-min; Sani-wipes for 3-min). Disinfectants will be present in the room.
- Snacks and community food to share should not be brought to work.

## Protocol - MSU COVID-19 Testing and Reporting

## Face Coverings (Updated August 13, 2020)

### Face coverings

Individuals with COVID-19 are highly infectious for up to two days before the onset of symptoms. Thus, face coverings are a crucial public health measure and help protect others by reducing exposure to droplets if someone is unknowingly infected with COVID-19. Wearing a face covering, whether you feel ill or have been diagnosed with COVID-19, is critical to maintaining everyone's health and safety.

**Face coverings must be worn by everyone** (including all faculty, staff, students, vendors and visitors) indoors and outdoors while you are on property owned or governed by MSU and while participating in MSU-related or MSU-sponsored activities. If you have a medical condition that may prevent you from safely wearing a face covering, you should contact [MSU's Resource Center for Persons with Disabilities](#) to begin the accommodation process.

Exceptions to the requirement for face coverings will be limited. For example, if you are indoors, exceptions are limited to when:

1. you are in your own place of residence and can therefore properly physically distance (at least six feet of physical separation between yourself and others);
2. you are in a private, single-occupancy office or lab space with a closed door and can reasonably expect other individuals not to enter (but if you leave your private, single-occupancy office or lab space and proceed into a common area or hallway - even if there are no other individuals present - you must wear a face covering); **or**
3. you are eating or drinking but still maintaining physical distance (at least six feet of physical separation between yourself and others).

If you are outdoors, exceptions are limited to when:

1. you are working outdoors and can maintain physical distance from others (but you will need to wear a face covering outdoors when interacting with others or when unable to maintain physical distance); **or**
2. you are exercising or engaging in high-intensity activities outdoors (for example, jogging, running, bicycling or golfing) and can maintain physical distance from others.

If you are working, an exception may be allowed in the following situations:

1. you are working in a setting where a face covering may increase the risk of a hazard (for example, the face covering could become wet, the face covering could get caught in machinery, or the face covering could become contaminated with chemicals used in the work environment);
2. you can maintain physical distance from others; **and**
3. you have previously consulted with your supervisor to determine the appropriate face covering for your setting.

In addition, if you are working, an exception may be allowed if you need a fresh-air break outdoors **and**

1. you can maintain physical distance from others,
2. you will not interact with others **and**
3. you have previously consulted with your supervisor.

Face coverings should:

1. be non-medical grade to maintain supplies for health care use,
2. fit snugly against the side of your face,
3. cover your nose and mouth,
4. be secured with ties or ear loops **and**
5. allow for breathing without restriction.

## Face Coverings (Updated August 13, 2020)

Cloth face coverings should only be worn for one day at a time, and they must be properly hand washed or laundered with soap/detergent before subsequent use. Face coverings may vary (for example, disposable non-medical masks or neck gaiters are acceptable).

In addition to wearing face coverings, whether you are on- or off-campus, you also must adhere to the guidelines and recommendations from the [Centers for Disease Control and Prevention \(CDC\)](#) as well as federal and [state government](#) authorities, in order to protect your own health and the health of the entire MSU community.
