

2016 BHEARD Scholar
Adama Bouare

Profile

Country of Study:	Ghana
University:	University of Ghana—Legon
Department:	Agricultural Economics and Agribusiness
Student Position:	Graduate Research Assistant—M.Sc.
Home Country:	Mali
Home Institution:	Rural Economics Institute of Mali
Home Position:	Research Engineer
Mentored By:	Home: Boureima Kone

Research Area: Agricultural Economics

BHEARD PROGRAM START DATE: August 2016

UNDERGRADUATE EDUCATION: Agricultural Engineering, with specialization in Food Economics, University Saad Dahleb of Blida, Algeria.

RESEARCH INTERESTS: Adama would like to work on the management and organization of issues facing farmers' organizations in Mali. In the most rural areas of Mali, agriculture production remains the production of subsistence. If the farmers are well organized and have access to agriculture research results, agriculture credit and input will be easier for them and they can produce with surplus and in addition, the outflow of the produce surplus.

PERSONAL STATEMENT: Adama's purpose is to help the farmers in developing countries to organize themselves in order to benefit the research results to then produce efficiently and sufficiently. Agricultural economics is the appropriate field to study to achieve this goal because it teaches Adama about developed nations, how to manage rural economics that include the rural economics organization, and how to manage natural resources, most being renewable resources.

WHEN I AM NOT WORKING I ENJOY: Adama enjoys learning about computer science, watching football matches and communicating with his friends on social networks.
