

2017 BHEARD Scholar
Lubajo Wani

Profile

Country of Study:	Kenya
University:	University of Nairobi
Department:	Agriculture
Student Position:	Graduate Research Assistant—MSc.
Home Country:	South Sudan
Home Institution:	Global CST Limited
Home Position:	Agronomist
Mentored By:	

Research Area: Water Management

BHEARD PROGRAM START DATE: September, 2017

UNDERGRADUATE EDUCATION: BSc. Agricultural Sciences, University of Juba

RESEARCH INTERESTS: Water management in agriculture. Lubago will evaluate the yield and water use efficiency of Sorghum as the main staple cereal in South Sudan.

PERSONAL STATEMENT: Lubajo hopes to become an irrigation and land conservation specialist to improve irrigated agriculture in South Sudan through proper irrigation scheduling, water harvesting techniques and proper soil management practices. He IS also ready and able to work in a challenging position in a dynamic organization or company where he can influence people through effective decision-making and work with them as a team.

WHEN I AM NOT WORKING I ENJOY: In his free time, Lubajo enjoys landscaping his compound. He talks to farmers and advices them on good agronomic practices and encourages neighbors to have kitchen gardens.
