This passport includes a list of all registered buyers and suppliers, each with an indication of local food products they are looking for or which products they offer, respectively.

WHO IS HERE?

Institutional food service and other food buyers interested in purchasing local food products from farmers and other local food suppliers in the region. Institutions of every scale were invited to participate.

Farmers and other food suppliers interested in selling local foods to institutional food buyers in the region. Farmers, food hubs, processors and distributors of every scale were invited to join.

HOW IT WORKS

It's a mix between speed-dating and a trade show!

- Buyers are stationed at tables around the room, and farmers and suppliers will rotate to meet with buyers of their choice.
- When the event starts, suppliers should find a buyer they would like to meet.
- Make introductions, ask questions, and exchange information. Then do it again with as many people you would like to meet.
- Be aware of the time and of others wanting to meet the person you are speaking with.
- Suppliers – you want to keep moving! This event is meant to build new relationships that extend beyond the night.
