Welcome

Boozhoo,

It is our honor and privilege to welcome you to the **Indigenous Food Sovereignty Summit**. We are grateful you have chosen to join us for this gathering of knowledge sharers, practitioners, storytellers, youth, elders, farmers, educators, and community leaders from across the Great Lakes region and beyond.

This summit was created as a space to uplift Indigenous and tribal voices and to celebrate the deep, enduring relationships our nations and communities hold with land, water, beings and ancestral foodways. Over the next few days, we invite you to learn, share, reflect, and build connections that strengthen our collective path forward.

Our conference objectives guide this work:

- **Knowledge Sharing:** Share food sovereignty initiatives and traditional foodways to inspire learning, exchange lessons, and strengthen community health and resilience.
- **Vision & Self-Determination:** Collectively define the future of Indigenous food sovereignty in the Great Lakes region, grounded in tribal leadership and long-term self-determination.
- **Skill Building & Collaboration:** Equip participants with practical skills and highlight collaborative efforts that unite communities, build capacity, and support sustainable, and just food systems.

Throughout the summit, you can expect speakers who are leading transformative food sovereignty efforts in their nations and communities, along with sessions on manoomin stewardship, sea gardens, foraging, sugar bushing, seed rematriation, partnerships, food preservation, madaamin and cornhusk doll traditions, soil health, storytelling, floral medicine, and ongoing North American Traditional Food Systems (NATIFS) work. Participants will also have opportunities to visit the Nokomis Cultural Heritage Center and the MSU Student Organic Farm through guided tours. In addition, you'll find time to connect with Indigenous vendors, artists, and cultural practitioners, and to take part in experiences that honor the land and the nations who have stewarded it.

Food sovereignty is more than access—it is reclamation. It is the protection of ancestral knowledge, the strengthening of sacred responsibilities, and the assurance that future generations inherit thriving, self determined food systems. Your presence here contributes to that future.

We are deeply grateful for your time, participation, your voice, and your commitment to this work. May this summit inspire new connections, deepen understanding, and strengthen the collaborations needed to nourish our communities for generations to come.

Chi Miigwech for being here.

—Dr. Kevin Leonard, MSU Director, Native American Institute

—Emily Proctor, MSU Extension Tribal Extension Educator

Agenda

MONDAY, APRIL 6

8 a.m.	Registration Vendor Set-up	Big Ten A Big Ten BC
9:45 a.m.	Opening Ceremony Welcome, Introductions, Prayers, Songs, MDARD Farm-to-Family, Summit Kick-Off	Big Ten A
10 a.m.	Break and Visit Vendor Trade Show	Big Ten BC

		Reflection <i>Angela Ferguson</i>		

- 12:15 p.m. Lunch** Big Ten A
Visit Vendor Marketplace Big Ten BC
- 1:30 p.m. Planting the Seeds for the Future** Big Ten A
A working feedback and visioning session to wrap up the 2026 Summit and help shape the 2028 Summit.
- 3 p.m. Adjourn**

MSU LAND ACKNOWLEDGEMENT

Michigan State University's campus is located in what is called Nkwejong by the Anishinaabeg.

Michigan State University occupies the ancestral, traditional, and contemporary Lands of the Anishinaabeg – Three Fires Confederacy of Ojibwe, Odawa, and Bodéwadmí peoples. The University's campus resides on the traditional Lands of the Saginaw Band of Chippewa, ceded under coercive or violent circumstances in the 1819 Treaty of Saginaw. Michigan State University is supported through the Land Grant Act, where 10.7 million acres were taken from 245 Tribal nations through the treaty system to fund and establish agricultural colleges. Michigan State University was established on and with 235,193 acres of Anishinaabe Land ceded in the 1819 Treaty of Saginaw and the 1836 Treaty of Washington.

Michigan State University recognizes, supports, and advocates for the sovereignty of Anishinaabe Nations from the Great Lakes area, for historic Indigenous communities in Michigan, for Indigenous individuals and communities who live here now, and for those who were forcibly removed from their homelands. By offering this Land Acknowledgement, we affirm Indigenous sovereignty and will work to hold ourselves more accountable to the needs of Indigenous peoples and to the creation of equitable and fair policies for years to come.

On view at the MSU Museum
September 1 – November 25, 2026
museum.msu.edu

MuSeUm

This project was led by the collaborative efforts of the Zibiwing Center for Anishinaabe Culture and Lifeways, the Michigan Traditional Arts Program and MSU Office of University Outreach and Engagement and the Michigan State University Museum. The project has been made possible through support from the Terra Foundation for American Art, National Endowment for the Arts, Institute of Museum and Library Services, The Andrew W. Mellon/Less Commonly Taught Language Grant at Michigan State University, Michigan Traditional Arts Exhibition Fund/MSU with additional in-kind support from the Zibiwing Center of Anishinaabe Culture and Lifeways/Saginaw Chippewa Indian Tribe of Michigan, Michigan State University Museum, Siewing Museum and Cultural Center (Grand Traverse Band of Ottawa and Chippewa Indians), Ojibwe Cultural Foundation (Manitoulin Island, Canada), Northwest Michigan Arts & Culture Network, Michigan Traditional Arts Program/MSU, Michigan State University Native American Institute, and the MSU Office for University Outreach and Engagement.

INTERGENERATIONAL KNOWLEDGE SHARE

(in partnership with IFSS Youth Cohort)

6-8 P.M. | MSU MULTICULTURAL CENTER

Join the IFSS Young Adult cohort for dinner and networking at this informal session. Enjoy time connecting with conference attendees, reflecting on your experience at the summit, and engaging with young indigenous food sovereignty leaders. This session will include a ceremonial fire from 7-8 p.m. with John Ostrander as the firekeeper. Dinner will begin at 6 p.m. This session is open to all conference attendees. We look forward to sharing this time together. *Transportation not provided. Maps will be available at the registration desk.*

SEED GIVEAWAY

Visit the MILES table in the Vendor Showcase to pickup your free seeds

As part of the Indigenous Food Sovereignty Summit, attendees are invited to select free seed celebrating ancestral knowledge, community resilience, and the revitalization of traditional foodways. This offering supports families and communities in growing culturally significant plants, strengthening connections to the land, and sustaining Indigenous food systems. Seeds will be available on-site throughout the summit at the MILES table in the vendor showcase. Participants are encouraged to select varieties that align with their own gardening goals, traditions, and regional growing conditions. This initiative reflects our shared commitment to nurturing food sovereignty, fostering intergenerational learning, and planting the seeds—literally and figuratively—for a healthier, more self-sustaining future.

Seeds were generously donated by:

Greater Lansing Food Bank Garden Project, Sow Right Seeds, Driftless Seeds, Johnny's Seeds, and West Coast Seeds.

RECIPE COLLECTION

<https://events.anr.msu.edu/foodsovereignty/>

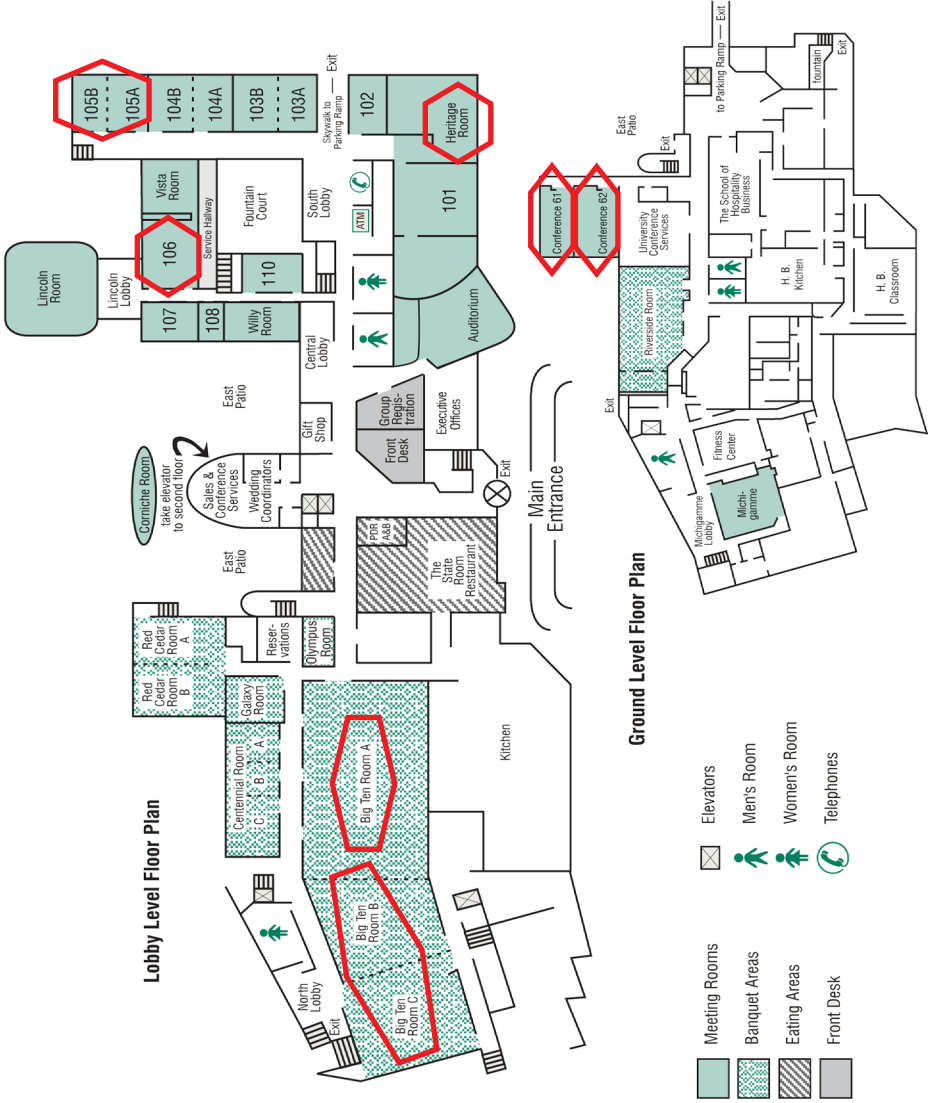

Attendees are invited to submit recipes as part of the Indigenous Food Sovereignty Summit recipe collection. Bring forward your go-to meal, a family favorite, or a creative way you have kept a traditional recipe alive. The collection of recipes will be shared with all attendees after the summit.

REFLECTION ROOM

ROOM 61 (LOWER LEVEL)

Although conferences and other gatherings can be exciting and inspirational, they can also be overwhelming and draining. If you need a moment to recharge your batteries or to just enjoy some quiet time, visit the Reflection Room, located in Room 61. There you will find fidget toys, coloring pages, puzzles, and other mindfulness activities. You're also welcome to sit quietly to meditate, reflect, or just be. This quiet space is open at all times from the start to the end of the summit. Taking moments of reflection, no matter how you view your conference time, is refreshing and allows your body and brain to recharge.

Keynote and Panel Speaker Bios

JESSICA BARNES-NAJOR

Jessica Barnes-Najor is a developmental psychologist who engages community partners in research. She co-investigates the Tribal Early Childhood Research Center and co-leads Wiba Anung with seven Michigan tribes. Her work examines Native language and cultural influences on child development and the cultural alignment of early childhood education. Since 2020, her team has woven Indigenous foods into early childhood education.

JAHI CHAPPELL

M. Jahi Johnson-Chappell is the Director of the Center for Regional Food Systems and a Professor of Community Sustainability at MSU, where he holds the W.K. Kellogg Foundation Endowed Chair for Food, Society, and Sustainability. For over 22 years, he has worked for participatory, just, and sustainable agrifood systems that center farmers, workers, and communities. His work has been featured in major outlets, including The New York Times and the Associated Press. He advances equitable food work.

ROBIN CLARK

Michigiizhigookwe (Robin Clark) is an Ojibwe researcher and practitioner who works with Anishinaabe and Western knowledge systems to support community-driven ecological stewardship and health equity. She focuses on learning from plants, animals, and other relatives and co-creating actionable knowledge and tools. She is a member of the Sault Ste. Marie Tribe of Chippewa Indians and lives in Baawiting. She holds degrees from MSU and Michigan Tech and founded Megwayaak, LLC, an Ojibwe ecology firm.

DANIEL CORNELIUS

Daniel Cornelius, member of the Oneida Nation of Wisconsin, is the Outreach Program Manager at the Great Lakes Indigenous Law Center in the UW Law School, where he holds a joint staff appointment in UW-Madison's College of Agriculture and Life Sciences. He earned his J.D. from the University of Wisconsin Law School. For seven years, Dan worked with the Intertribal Agriculture Council in partnership with the US Department of Agriculture. His work centers on Native agriculture and food systems development, improved Tribal access to USDA programs in conservation, value-added production, and infrastructure, and the expansion of intertribal trade and commerce. He also serves as an elected judge of the Oneida Nation's Court of Appeals.

DOUGLAS W. CRAVEN

Douglas Craven believes effective natural resource management requires understanding human and ecological systems. Committed to Michigan's resource community, he has served on boards including the Great Lakes Leadership Academy, Great Lakes Fishery Trust, and Pellston Planning Commission. With 20+ years of experience and dual degrees from Western Michigan University.

KAYA DEERINWATER

Kaya DeerInWater is from the Citizen Band of Potawatomi and lives in Wasëtenak.

He serves as the Biocultural Restoration Specialist and Plant Ecologist for the American Indian Higher Education

Consortium, supporting TCUs and tribal communities in restoring land and culture, such that the ecosystem services contribute to cultural revitalization and the rekindling of culture strengthens ecological integrity. He strives to support Native communities in developing relationships with plants and the land through reconnection with place-based Indigenous knowledge of culturally significant plants.

Keynote and Panel Speaker Bios

ROBERT HART

Robert “Bobby” Hart, a member of the Saginaw Chippewa Indian Tribe and Ho-Chunk Nation, is the founder of LiDAR Drone Services, a Native-owned company providing thermography, LiDAR mapping, and aerial data for energy and infrastructure projects nationwide. He works at the intersection of technology, land stewardship, and Indigenous leadership and is also a speaker and author advancing standards in drone thermography. He advances Indigenous leadership in tech and promotes strong drone standards.

ERIC HEMENWAY

Eric Hemenway is an Anishnaabe/Odawa from Cross Village and is the Humanities Manager for the University of Michigan’s School of Environment and Sustainability. He previously spent twenty years in archives for the Little Traverse Bay Bands of Odawa Indians. His work shares Anishnaabe stories through exhibits, curriculums, signage, public programs, media and publications with partners including the National Park Service, State of Michigan, Newberry Library, Yale, Harvard, Michigan State and numerous public institutions. He also has extensive experience under the Native American Graves Protection and Repatriation Act.

AMY MCCOY

Aamookwe, Amy McCoy, is Anishinaabe Science and Food Sovereignty Educator for Bay Mills Community College’s (BMCC) Waishkey Bay Farm and Adjunct Ojibwe and Native Studies Faculty. She creates and teaches interdisciplinary Ojibwe language curriculum through Food Sovereignty and holistic wellness. Her Indigenous language, land, and art based doctoral research centers in relationality with other than human relatives through time, space, and Baawiting tethered Anishinaabemowin. She is the author of the Indigenous pedagogical framework for teachers: Anishinaabe Nandagikenjigewin

miinawaa Eshandizoyang: An Experiential Introduction to Anishinaabe Science and Food Sovereignty (created with SARE support). She is currently engaged in the pilot evaluation of the Anishinaabe Holistic Wellness & Anishinaabemowin curriculum she wrote for BMCC. She also has a small organic Rez farm Miikoging where she is led by Anishinaabemowin, which she refers to as Ojibwemowin Nitam, and the spirit of mandaamin, corn.

ELAN POCHEDELEY

Elan Pochedley is the 1855 Professor of Great Lakes Anishinaabe Knowledge in MSU’s Department of Religious Studies and affiliate faculty in American Indian and Indigenous Studies. He is the 2025–26 NCAIS Faculty Fellow at the Newberry Library. Author of Restoring Indigenous Place Names and with a second book, Neshnabé Geographies in progress, both of which focus on Bodéwadmi and Ojibwe knowledge, ecological relationships, environmental histories and ethics. He is Neshnabé/Bodéwadmi and a Citizen Potawatomi Nation citizen. His research examines Native peoples’ historic environmental relationships, interventions, and practices throughout the Great Lakes region.

MARTIN REINHARDT

Dr. Martin Reinhardt is an Anishinaabe Ojibway citizen of the Sault Ste. Marie Tribe and descendant of Garden River First Nation. He is a retired professor emeritus of Native American Studies at Northern Michigan University and former president of the Michigan Indian Education Council. He is lead singer and songwriter for Waawiyeyaa and serves on his Tribe’s Food Sovereignty Committee. His work focuses on Indigenous plants, animals, treaties, and Anishinaabemowin. He holds a Ph.D. in educational leadership, where his doctoral research focused on Indian education and the law with a special focus on treaty educational provisions.

Keynote and Panel Speaker Bios

ROSEBUD BEAR SCHNEIDER

Rosebud Bear Schneider, Anishinaabe (LCO/LDF)

is a farmer, food producer,

Indigenous food educator and community organizer. Over the last 15 years she has served as a breastfeeding educator and community health worker and then as a farmer and nutrition educator with food sovereignty projects in Detroit and Northern Michigan. Rosebud also works with the Wiba Anung team, a collaborative partnership between Michigan State University and the Inter-Tribal Council of Michigan to support the health and well-being of indigenous children and families in Michigan. Rosebud is the co-director of Education and Engagement at Keep Growing Detroit, a non-profit urban farm with the mission to cultivate a food sovereign city where the majority of produce consumed by Detroiters are grown in Detroit by Detroiters.

KYLE WHYTE

Kyle is a George Willis Pack Professor and University Diversity and Social Transformation

Professor at Michigan. He teaches and coordinates the environmental justice graduate specialization and is the founding Faculty Director of the Tishman Center for Social Justice and the Environment. He serves as PI or co-PI on major justice and climate initiatives and holds appointments in Philosophy, Native American Studies, and the Michigan Society of Fellows.

NATHAN WRIGHT

Nathan Wright, a citizen of the Sault Ste. Marie Tribe of Chippewa Indians, is based in

Petoskey and is a descendant of Chief Kagayosh, a signer of the 1836 Treaty. He strives to live bimaadiziwin, teaching plant-based knowledge through direct experience and a deep relationship with the land. Known as a modern-day bushman, he inspires others to reconnect with nature and seek balance. He founded Herbal Lodge, creating organic, wild-harvested products and advancing food sovereignty for over 15 years. He honors ancestral knowledge.

KATHLEEN SMITH

Kathleen Smith is an enrolled member of the Keweenaw Bay Indian Community in Michigan's

Upper Peninsula. She works in the Division of Biological Services at the Great Lakes Indian Fish and Wildlife Commission as Genawendang Manoomin—"She who takes care of the wild rice." She implements GLIFWC's wild rice stewardship plan, works with 11 member tribes, supports treaty rights, and blends traditional and modern knowledge to advocate for the nations.
