

# MSU Agriculture Innovation Day

## Focus on Forages and the Future

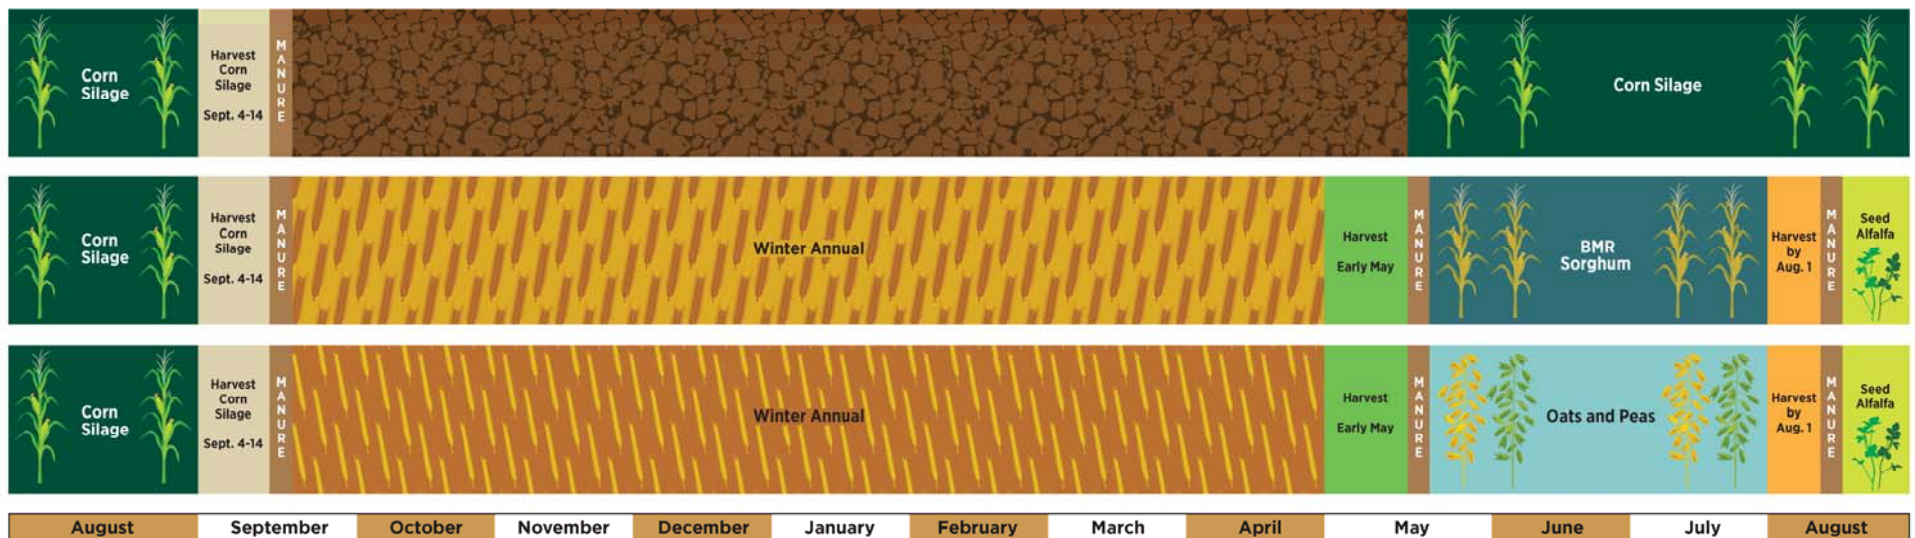

College of Agriculture  
and Natural Resources  
MICHIGAN STATE UNIVERSITY

## Enhance your land use with Double Cropping

### Shape the year to fit your farm's needs

Double cropping provides windows for manure application; phosphorous removal and alternative forage steams

# MSU Agriculture Innovation Day

## Focus on Forages and the Future

and Natural Resources  
MICHIGAN STATE UNIVERSITY

### **Enhance your land use with Double Cropping**

*Dr. Kim Cassida and Dr. Tim Harrigan, Michigan State University*

- Open windows for manure application throughout the year
- Diversify types of forages available to feed
- Keep living roots in the soil year round
- Improve soil health
