- Senator Darwin Boohar & Representative Philip Potvin

“Now that we’ve embarked on these new placemaking projects, we are absolutely expecting that this will become an even greater place for people to come and gather to enjoy our community. The Plaza, in addition to the other placemaking spaces in Cadillac Commons, creates the perfect location for people of all ages to congregate. Whether it is to experience a concert or a special festival, or simply to visit, its proximity to downtown, our trails, and our beautiful lakefront make it very inviting and perfect for all occasions.”

Carla Filkins, City Mayor
